mita nother season to tight legs? Not any. Over one hundred cases of fashiomable suicides occurred last year through the continuance of this fashion. Some young men would follow the fashion. I some young men would follow the fashion and they are taken themselves off boott prayers, imped off, swam to shore, returned home, oursed the tailor and died a matural death. Chers, less fortunate, have pined away, been struck by lightning, goow West and reformed and commenced waring the peg-top pants. The fashion gentus of to-day deesn't claim the invention of this style. It is a mode of twenty years standing, a fashion which blighted the prospects of many a young aspirant in 1854-55, and which, through the run of some inelegant mind, has been revived as the style of to-day. These pants are cut something in the shape of a beer cask, full and loose around the hips and legs, with very little spring at the bottom. They receptly inflicted philow cases, and are pretty generally worn.

The great object in cases of indigestion and it accompanying derangements of the liver, bowel and nerves is to put the stomach in a condition to dissolve, readily and without pain, the food sub mitted to its action. This is accomplished, an much more than this, by the daily use of Hostel ter's Stomach Bitters. A dose should be take! before every meat. The good effect will soon be apparent. The loss of fiesh, strength and energy which usually occurs in dyspepsia will be arrested. The determination of bile to the skin will cease and that cathartic fluid will pass into the bowel and assist in keeping them free. Every organ connected with or dependent upon the stomach will be toned and resolvated. The kidneys, the sifters of the system, will be beneficially in fluenced, as well as the liver, the alimentary canal and the porces. In short, the whole organization will be put in the fighting trim necessary to resist and exped disease. If the medicine is taken regularly and persistently, this result will inevitably follow. PUT THE SYSTEM IN PIGHTING TONE.

INCREASE YOUR LIGHT, reduce your gas bills, and prevent the disagree able hissing and blowing so common with the old style burners. Thousands are already in use in this city, in the Government Printing Office, hotels, public halls, churches and private residence. The above facts demonstrated to the satisfaction of any one before purchase. Burners of the center of any one before purchase. Burners are said the trade. With the German opal globe the light at the softest and most brilliant ever discovered. The same globe, very richly decorated is the most beautiful thing in existence for parlor ure. TO ALL, particularly invalids, spring is a trying season. Indications of sickness should at once be attended to. Fatal diseases may be caused by allowing the bowels to become constituted, and the system to remain in a disordered condition, until the disorder has time to develop itself. An ounce of prevention is worth a pound of cure, is an old and truthful saying. Therefore, we advise all who are troubled with the complaints now very prevalent—headache, indigestion, disordered liver, want of appetite, nauses, or foverish skin, to take, without delay, Schenck's Mandrake Pills. We know of no reusedy so hermiess and decisive in its action. It at once strikes at the root of the disease and produces a healthy tone to the system. People naver need suffer from any disease artising from a disordered condition of the liver if they would take this excellent medicine when they feel the first indications of the malady. Families leaving for the summer months should take three or four bares of these pills with them. They have an aimost fostantaneous effect. They will relieve the patient of headache in one or two hours, and will rapidly cleanse the liver of surrounding bile, and will effectually prevent a billous attack. They are sold by all drugglits.

THE COLLEGE BOYS' FLAG. It has been heretelore mentioned in THE NA Tronal Republican that the students of Georgetown Geldage have ordered an American flag to accompany the pitgrism to Learder, who will start from New York on Satarday usat. The flag has just been prepared by Sisco Brothers, of Baltimore, is a spleadid specimen of workmanship eight feet long by five feet wide, made of the best quality of sift, and trimmed withgold builden fringe, and ernamented with gold tassels. It has a double neided blue. On one side it bears the following inscription: "A. N. D. de Lourder Les sieves du Collège de Georgetewn Aux Hats Unit d'America, 1814 " Beatl... qui acristunt coram fe omni tempore Par II. On the reverse side the inscription is in English: "To Cur Lady of Lundes—The Students of Georgetewn Collège, United States of America, June. 1874 " "Fl. fit ini de longe venerant." O Immuruleta. It is the intention to have the flag taken to Rome and blessed by Pope Pius IX, and afterwards deposited at the strine of Our Lady of Lourdes.

AN ADDRESS TO POFE PIUS IX.
Yesterday afternoon at 1-0 clock the students assembled in front of the pricet's balcony at the college, and, on unfurling the flag, the Students' band played "Hall Columbia," after which the following address and played "Hall Columbia," after which the

assembled in front of the pricet's balcony at the college, and, on unfurling the fing, the Students' band, played "Hall Columbia," after which the following address was read-by James F. Tracey, chairmas of the committee:

Most Holy Fathers: Knowing full well the interest you take in the welfare of your children throughout the world, and especially those of the rising generation, we, the students of the Georgetown College, cast ourselves in spirit before you and presume to offer you out humble homage and heart-calt gyupathy in your present grevious afflictions. The thought of all the insuits and injuries you have received has excited in our hearts the deepest sorrow and Indugation, and we long to show our Father the love and veneration which thind us to him in this his hour of traft. Afar off in our own country, where, we are happy to say, there is among Catholic youth an ever-increasing growth of love for the Charch and devotion to its head, we hear of the dully triumphs of his enemies and the ever-narrowing cordino of persecution that hems him in; and so with all our hearts we unite in spiril, since we cannot in person, with those plous pligrims from our beloved country who will shortly set out for failtion, and their affection for their suffering Poulff. It is their hope and ours that thus a lew drops of comfort may be mingled with the bitter chalice which he has been compelied to dr.ns. They will carry with them to the feet of your Hollness this written evidence of the sympathy of the students of theory, shown college in their holy errand. Nor will it be, as your bioliners may remember, the first testimony of the love and fadelity we bear towards your person.

With our American pligrims will also be borne our memorial for Mary's shrine. It will be the fing of our country, on whose folds for the first time, perhaps, will be found inscribed the name of our Lady of Lourdes. But before it shall reach its final destination we ask for it at your hands the biessing we feel condent you will gladly impart. At that sh

Upon the conclusion of the reading of the address. Rev. Father Healy, president of the college, was requested to give his public approbation of the design of the flag and sentiments of the address, which he did in a cheerful and graceful manner, and closed by dismissing the schools for the evening.
